

R-SPL-II-C SafetyPlus II - Countersunk

High performance mechanical anchor - loose bolt option

Approvals and Reports

- ETA-14/0345

Product information

Features and benefits

- Mechanical anchor for highest tension and shear loads
- Seismic category C2 for structural applications. Seismic category C1 for non-structural use in areas with low seismic risk.
- For usage with required fire resistance
- ETA Option 1 for cracked and non-cracked concrete.
- Antirotation brush to prevent rotation during installation.
- Anchor's construction allows easy through-installation (drilling and installation through fixed material)
- Three types of tips (nut, flat or tapered bolt) allow simple fitment for installed element
- 8.8 grade steel material of anchor provides high durability

Applications

- Structural steel
- Masonry support
- Cladding restraints
- Road Signs
- Heavy machinery
- Racking systems
- Industrial doors
- Safety barriers

Base materials

Approved for use in:

- Cracked concrete C20/25-C50/60
- Non-cracked concrete C20/25-C50/60
- Unreinforced concrete
- Reinforced concrete

Also suitable for use in:

- Natural Stone (after site testing)

Installation guide

1. Drill a hole of required diameter and depth
2. Clear the hole of drilling dust and debris (using blowpump or equivalent method)
3. Insert anchor through fixture into hole and tap until required installation depth is achieved
4. Tighten to the recommended torque

Product information

Size	Product Code	Anchor			Fixture	
		Thread size	External diameter	Length	Max. thickness	Hole diameter
		d [mm]	d _{nom} [mm]	L [mm]	t _{fix} [mm]	d _f [mm]
M6	R-SPL-II-06080/25C	6	10	80	25	12
